The novel draws heavily on the experiences of thousands of British children who were evacuated from urban areas to the countryside to escape the Blitz. This section provides an overview of this historical event and its influence on the narrative.

Operation Pied Piper

The evacuation scheme, known as Operation Pied Piper, began in September 1939 and saw millions of children, along with mothers with young children, pregnant women, and disabled individuals, relocated from potential target areas. This mass movement of people had profound social and personal consequences, creating both opportunities and challenges for those involved.

The Evacuee Experience

For many children, evacuation meant being separated from their families and thrust into unfamiliar surroundings with host families who varied greatly in their kindness and willingness to provide care. Some children experienced warmth and stability,

while others, like Willie, faced neglect and even abuse in their new environments. The novel accurately portrays the anxieties, the practicalities, and the emotional toll of being an evacuee.

Social and Class Divisions

Magorian subtly touches upon these differences through the characters and their interactions.
