So, let's dive in and discover how to make cushion covers at home, step-by-step!

Why Make Your Own Cushion Covers?

Before we get our hands dirty with fabric and thread, let's consider the compelling reasons to embark on this creative journey:

1. **Cost-Effective:** Store-bought cushion covers can be surprisingly pricey. DIYing them is significantly more budget-friendly, especially if you utilize fabric remnants or sales.

2. **Customization is Key:** You have complete control over fabric choice, color, pattern, size, and embellishments. Match your existing decor perfectly or create a statement piece.
3. **Sustainable Style:** Upcycle old clothes, curtains, or even bedding to give them a new lease on life and reduce textile waste. This is a fantastic way to embrace eco-friendly interior design.
4. **Skill Development:** It's a beginner-friendly sewing project that can boost your confidence and introduce you to basic sewing techniques.
5. **Unique Gifts:** A handmade cushion cover is a thoughtful and personalized gift that's sure to be cherished.

Choosing Your Fabric: The Foundation of Your Cover

The fabric you select will set the tone for your cushion cover. Consider the following:

Fabric Types to Consider:

1. **Cotton:** Versatile, breathable, and easy to work with. Great for everyday use. Look for quilting cotton, poplin, or canvas.
2. **Linens:** Offers a beautiful natural texture and a sophisticated look. Can be prone to wrinkling but adds a touch of elegance.
3. **Velvet/Plush:** For ultimate coziness and luxury. Perfect for adding warmth to a room. Requires a bit more care when sewing.
4. **Upholstery Fabric:** Durable and designed for high-traffic areas. Often has a heavier weight and texture.
5. **Knits:** Stretchy and comfortable, but can be trickier to sew due to their tendency to curl. Use a ballpoint needle if working with knits.

6. **Remnants and Upcycled Materials:** Don't overlook old curtains, dresses, scarves, or even sturdy tablecloths. These can yield fantastic and unique fabrics.

Factors to Keep in Mind:

1. **Durability:** Will the cushion be used frequently? Opt for tougher fabrics like canvas or upholstery if so.
2. **Washability:** If spills are a common occurrence, choose a fabric that's easy to clean. Pre-wash your fabric to prevent shrinkage later.
3. **Texture and Feel:** Do you want something soft and plush, or crisp and cool?
4. **Pattern and Color:** Will it complement your existing decor or be a bold statement piece? Consider coordinating patterns or using a plain fabric to highlight a unique cushion insert.

Essential Tools and Materials

Gathering your supplies before you start will make the process smooth and enjoyable.

1. **Fabric:** Enough to cover your cushion insert with a little extra for seams and overlap (more on this in sizing).
2. **Cushion Insert:** The pillow you'll be covering.
3. **Sewing Machine:** While hand-sewing is possible, a machine will make this project much faster and produce a neater finish.
4. **Thread:** Matching or contrasting thread to your fabric.
5. **Fabric Scissors:** Sharp scissors are crucial for clean cuts.
6. **Pins:** To hold fabric in place.
7. **Measuring Tape or Ruler:** For accurate measurements.
8. **Fabric Marker or Chalk:** To mark cutting lines.
9. **Iron and Ironing Board:** Essential for pressing seams and achieving a professional look.

10. **Optional:** Zipper, buttons, piping, pom-poms, or other embellishments for added flair.

The Basic Envelope Cushion

Cover: A Beginner's Best Friend

The envelope cover is the most straightforward and popular style for homemade cushion covers. It involves overlapping fabric at the back, eliminating the need for zippers or buttons, and making it incredibly easy to remove for washing. Let's break down how to make one.

Step 1: Measure Your Cushion Insert

This is the most crucial step for a perfect fit.

1. **Measure Width and Length:** Lay your cushion insert flat and measure its width and length in inches or centimeters. For example, if your cushion is 16 inches by 16 inches, you'll use these dimensions.

Step 2: Calculate Your Fabric Dimensions

To create the envelope closure, you'll need to add extra fabric to the back panels.

1. **Front Panel:** Cut one piece of fabric that is the width of your cushion by the length of your cushion. (e.g., 16" x 16").
2. **Back Panels:** You'll need two back panels. Each panel will be:
 1. **Width:** The width of your cushion + 1 inch for seam allowance (e.g., 16" + 1" = 17").

2. **Length:** Half the length of your cushion + 4 inches (this 4 inches accounts for the overlap and seam allowance). (e.g., $16" / 2 + 4" = 8" + 4" = 12"$). So, you'll cut two panels of 17" x 12".

Pro Tip: Always double-check your calculations. A little extra fabric is better than not enough!

Step 3: Prepare Your Fabric

1. **Pre-wash Your Fabric:** If you haven't already, wash and dry your fabric according to its care instructions. This prevents shrinkage after you've sewn your cover.
2. **Iron Your Fabric:** Ensure your fabric is smooth and wrinkle-free before cutting.

Step 4: Cut Your Fabric Pieces

Using your fabric scissors, ruler, and fabric marker, carefully cut out your three pieces according to the dimensions calculated in Step 2.

Step 5: Hem the Back Panels

This is where you create the overlap for the envelope closure.

1. **First Fold:** On one of the long edges of *each* back panel, fold the raw edge over by about ½ inch and press with your iron.
2. **Second Fold:** Fold the same edge over again by about 1 inch, enclosing the raw edge. Press firmly.
3. **Stitch the Hem:** Sew along the folded edge, about ¼ inch from the folded edge, to create a clean, finished hem. Repeat this for both back panels.

Step 6: Assemble the Cushion Cover

Now it's time to bring all the pieces together.

1. **Place the Front Panel:** Lay your front panel right side up on your ironing board or a clean surface.
2. **Position the Back Panels:** Take one of your hemmed back panels and place it on top of the front panel, right side down, aligning the raw edge with the corresponding raw edge of the front panel. The hemmed edge should be towards the center of the cushion.
3. **Add the Second Back Panel:** Take the second hemmed back panel and place it on top of the first back panel, right side down, aligning its raw edge with the remaining raw edge of the front panel. The hemmed edges of the two back panels should overlap in the middle. Ensure the overlap is generous enough to cover the cushion insert.
4. **Pin Everything Together:** Secure all three layers of fabric together with pins all around the outer edges. Make sure to pin through all layers.

Step 7: Sew the Cushion Cover

1. **Set Up Your Sewing Machine:** Thread your sewing machine with your chosen thread and set it to a straight stitch.
2. **Sew Around the Edges:** Starting at one corner, sew around the entire perimeter of the pinned fabric layers. Aim for a ½ inch seam allowance (meaning you sew ½ inch away from the raw edge).
3. **Reinforce Corners:** When you reach each corner, backstitch a few stitches to reinforce it.
4. **Trim Corners:** Once you've sewn all four sides, trim the corners diagonally, being careful not to cut into your stitching.

This helps to create neater, less bulky corners when you turn the cover right side out.

Step 8: Turn and Finish

1. **Turn Right Side Out:** Carefully turn the cushion cover right side out. You can use a blunt object, like a chopstick or the eraser end of a pencil, to gently push out the corners.
2. **Insert Your Cushion:** Slide your cushion insert into the newly made cover. The overlapping back panels will create a neat closure.
3. **Final Press:** Give your finished cushion cover a final press with the iron for a crisp, professional look.

Congratulations! You've just made your first cushion cover.

Beyond the Basics: Elevating Your Cushion Cover Designs

Once you've mastered the envelope cover, the world of cushion making opens up. Here are a few ideas to add some extra flair:

Adding Zippers for a Polished Finish

For a cleaner, more professional look, consider adding a zipper. This is especially good for cushions that might need frequent washing or for a more structured appearance.

How to Add a Zipper:

1. **Measure and Cut:** Cut your front panel and two back panels as usual, but make the back panels slightly shorter to accommodate the zipper.

2. **Prepare One Back Panel:** Hem one of the long edges of *one* back panel as you would for an envelope cover.
3. **Attach the Zipper:**
 1. Lay the *other* back panel right side down. Place a zipper, right side down, along one of the long raw edges, with the zipper pull facing outwards.
 2. Pin the zipper in place.
 3. Using a zipper foot on your sewing machine, sew the zipper to the fabric, close to the zipper teeth.
 4. Repeat this process with the front panel and the other side of the zipper, ensuring the front panel is right side down.
4. **Sew the Sides:** Once the zipper is attached to both the front and back panels, open the zipper halfway. Lay the front panel right side up and place the attached back panels on top, right side down, aligning the remaining raw edges. Pin and sew around the remaining three sides with a ½ inch seam allowance.
5. **Turn and Finish:** Turn right side out through the open zipper.

Embellishments and Decorative Touches

This is where your creativity can really shine!

1. **Piping:** Adds a professional, defined edge. You can buy pre-made piping or make your own using cording and bias tape.
2. **Buttons and Loops:** A charming detail for the back overlap or as decorative elements.
3. **Tassels and Pom-Poms:** Add a playful and bohemian touch to the corners or edges.
4. **Appliqué:** Cut out shapes from contrasting fabrics and sew them onto the front panel for a personalized design.
5. **Embroidery:** Add intricate patterns or monograms for a truly bespoke feel.

6. **Contrasting Fabric Panels:** Combine different fabrics for a modern and geometric look.

Working with Different Shapes

While square and rectangular cushions are the most common, you can adapt these techniques for other shapes.

1. **Round Cushions:** You'll need to cut a circle for the front and back. The back piece will need an opening for insertion, similar to the envelope or zipper method, but adapted for a circular shape.
2. **Bolster Cushions:** These require a long rectangular piece for the body and two circular end pieces.

Troubleshooting Common Cushion Cover Making Issues

Even experienced crafters encounter bumps in the road. Here are some common issues and how to fix them:

1. **Cushion Cover is too small/tight:** This usually happens if you didn't add enough seam allowance or the overlap wasn't sufficient. Next time, double-check your measurements and add a little extra to each dimension.
2. **Cushion Cover is too big/baggy:** You may have used too much fabric or your seam allowance was too large. Try re-sewing with a smaller seam allowance or, if it's slightly too big, you can sometimes take in the seams.
3. **Fabric is stretching or puckering:** Ensure you are using the correct needle for your fabric type (e.g., ballpoint for knits) and that your sewing machine tension is properly set.
4. **Uneven seams:** Practice sewing in a straight line on scrap

fabric. Using a sewing machine with seam guides can also be very helpful.

5. **Zipper is bunching:** Make sure the fabric is smooth and taut as you sew the zipper. Using a zipper foot and not stretching the fabric is key.

Caring for Your Handmade Cushion Covers

To keep your beautiful creations looking their best:

1. **Check the Fabric Care Label:** Always follow the manufacturer's instructions for the fabric you used.
2. **Spot Clean When Possible:** For minor stains, try spot cleaning to avoid unnecessary washing.
3. **Gentle Wash Cycle:** When washing, use a gentle cycle with cold water.
4. **Air Dry:** Whenever possible, air dry your cushion covers to prevent shrinkage and fading. If you must use a dryer, use a low heat setting.
5. **Ironing:** Iron on the appropriate setting for your fabric, usually on the wrong side to protect delicate embellishments.

For beginners, pre-washing fabric helps prevent shrinkage after sewing, while pressing seams flat maintains a crisp, professional look. Sewing a cushion cover is straightforward once you grasp a few key techniques. Starting with a simple rectangular or square pattern, align edges carefully and use matching stitches to secure seams. For corners, diagonal or curved finishes provide a polished touch,

especially on round or decorative cushions. Reinforcing stress points like the corners and edges ensures durability, making your cushion withstand regular use. Why Make Your Own Cushion Covers?

The Benefits of DIY

The decision to make your own cushion covers is often driven by a combination of factors:

1. **Cost-Effectiveness:** Ready-made cushion covers can be surprisingly expensive, especially those made from premium fabrics or featuring intricate designs. Making your own can drastically reduce the cost, allowing you to update your decor more frequently without breaking the bank.
2. **Unlimited Customization:** The retail market, while extensive, can sometimes feel limiting. When you make your own, you have complete control over fabric choice, color, pattern, size, and

embellishments. This means you can perfectly match your existing decor, create unique seasonal themes, or express your individual style.

3. **Fabric Exploration:** DIY projects open the door to experimenting with a vast array of fabrics – from luxurious velvets and durable linens to playful cottons and eco-friendly recycled materials. You can find fabrics that offer specific textures, durability, or even unique properties like water resistance.
4. **Sustainability and Upcycling:** Making cushion covers is an excellent way to upcycle old clothes, curtains, or fabric scraps, giving them a new lease on life and reducing textile waste.
5. **Skill Development:** Sewing is a valuable life skill. Starting with a simple project like cushion covers is a fantastic way to build confidence and learn basic sewing techniques.
6. **Personalized Gifts:** A handmade cushion cover, crafted with care and a specific recipient in mind, makes a thoughtful and unique gift.

Choosing Your Fabric: The Foundation of a Great Cushion Cover

The fabric you choose will dictate the look, feel, and durability of your cushion cover. Consider these factors:

Fabric Types and Their Properties

1. **Cotton:** A popular choice due to its breathability, ease of care, and wide availability. Quilting cottons are great for beginners as they are stable and easy to cut and sew. Linen blends offer a more sophisticated drape and texture.
2. **Linen:** Known for its natural texture, breathability, and luxurious feel. It can wrinkle, but this is often considered part of

its charm.

3. **Velvet:** Adds a touch of opulence and comfort. It can be more challenging to sew due to its pile, which can shift. Choose upholstery velvet for better durability.
4. **Upholstery Fabrics:** Designed for durability and often feature stain-resistant properties. They are excellent for high-traffic areas.
5. **Corduroy:** Offers a warm, textured look and feel, perfect for a cozy aesthetic.
6. **Outdoor Fabrics:** If your cushions will be used outdoors or in sunny spots, opt for UV-resistant and water-repellent outdoor fabrics.
7. **Knit Fabrics:** Stretchy and comfortable, but require specific sewing techniques (like using a ballpoint needle and walking foot) to prevent skipped stitches and puckering.

Key Considerations When Selecting Fabric:

1. **Durability:** For cushions that will see a lot of use, choose hard-wearing fabrics.
2. **Washability:** Consider how easily the fabric can be cleaned. Pre-washing your fabric before cutting is crucial to prevent shrinkage after the cover is made.
3. **Drape:** How the fabric hangs and folds will affect the overall look.
4. **Pattern and Color:** Choose a fabric that complements your existing decor. Bold patterns can make a statement, while solids offer versatility.
5. **Weight:** Lighter fabrics might be easier to sew but can appear less substantial. Heavier fabrics offer more structure.

Essential Tools and Supplies for Making Cushion Covers

Before you begin, gather these necessary items:

1. **Fabric:** Enough to cover your cushion insert, plus extra for seams and potential errors.
2. **Cushion Insert:** The pillow you'll be covering.
3. **Sewing Machine:** While hand-sewing is possible, a machine will make the process faster and produce more professional results.
4. **Thread:** All-purpose polyester thread in a coordinating or contrasting color.
5. **Sharp Fabric Scissors:** Essential for clean cuts. Dedicated fabric scissors should not be used for paper.
6. **Rotary Cutter and Cutting Mat:** Optional but highly recommended for precise cutting, especially for larger projects.
7. **Fabric Measuring Tape or Ruler:** For accurate measurements.
8. **Pins:** To hold fabric pieces together while sewing.
9. **Sewing Machine Needles:** Appropriate for your fabric type (universal, ballpoint, or denim).
10. **Iron and Ironing Board:** Crucial for pressing seams as you go, which leads to a much neater finish.
11. **Seam Ripper:** Your best friend for correcting mistakes.
12. **Zipper Foot (optional):** If you plan to install a zipper closure.
13. **Interfacing (optional):** For adding structure or stabilizing delicate fabrics.

How to Make a Basic Envelope

Cushion Cover: A Step-by-Step Guide

The envelope style is one of the easiest and most popular methods for making cushion covers. It requires no zippers or buttons and allows for easy removal of the cover for washing. Here's how to create one:

Step 1: Measure Your Cushion Insert

Measure the width and height of your cushion insert. For example, a standard 18-inch square cushion. Let's call these measurements W and H.

Step 2: Calculate Your Fabric Piece Sizes

You'll need three fabric pieces:

1. **Piece 1 (Front):** This will be the same size as your cushion insert. So, $W \times H$. (e.g., $18" \times 18"$).
2. **Piece 2 (Back Overlap 1):** This piece will be the same width as the front (W) and half the height plus an overlap allowance. A good overlap is typically 4-6 inches. So, $W \times (H/2 + 5 \text{ inches})$. (e.g., $18" \times (18"/2 + 5") = 18" \times 14"$).
3. **Piece 3 (Back Overlap 2):** This piece will also be the same width as the front (W) and half the height plus an overlap allowance. However, to create the envelope closure, one edge needs to be hemmed. So, $W \times (H/2 + 5 \text{ inches})$. (e.g., $18" \times (18"/2 + 5") = 18" \times 14"$).

Important Note on Seam Allowance: We're adding the overlap

allowance here. For the actual seam allowances along the sides and top/bottom where the pieces will be joined, add 1/2 inch (or your preferred seam allowance) to each relevant edge.

Let's recalculate with seam allowances included for clarity. For an 18" x 18" cushion insert:

1. **Front Piece:** 18.5" x 18.5" (adding 0.5" seam allowance on all sides)
2. **Back Piece 1:** 18.5" (width) x 10.75" (half height of 18" + 0.5" seam allowance + 4" overlap). So, 18.5" x 10.75".
3. **Back Piece 2:** 18.5" (width) x 10.75" (half height of 18" + 0.5" seam allowance + 4" overlap). So, 18.5" x 10.75".

Hemming the Overlap Edges: One of the long edges of each back piece needs to be hemmed. This will be the edge that forms the opening of the envelope. For Piece 2, hem one 18.5" edge. For Piece 3, hem one 18.5" edge.

Step 3: Prepare the Fabric Pieces

Pre-wash and Iron:

Always pre-wash and iron your fabric before cutting. This prevents shrinkage after your cover is made. Ironing also ensures a smooth surface for accurate cutting and sewing.

Cut Your Fabric:

Using your measurements, carefully cut out the three fabric pieces. Use sharp fabric scissors or a rotary cutter for precise edges.

Hem the Back Pieces:

Take Piece 2 and Piece 3. On one of the long edges of each piece (this will be the edge that forms the opening of the envelope),

create a double-folded hem. Fold the edge over by 1/4 inch and press, then fold over by another 1/4 inch and press again. Stitch close to the inner folded edge using your sewing machine. This creates a clean, finished edge.

Step 4: Assemble the Cushion Cover

Arrange the Pieces:

Lay your front piece (Piece 1) right side up on a flat surface. Now, place Piece 2 and Piece 3 on top of the front piece, right sides down. The hemmed edges of Piece 2 and Piece 3 should overlap in the center to create the envelope opening. Align the raw edges of all three pieces.

Pin in Place:

Carefully pin all around the outer edges of the three layers, securing them together. Make sure the fabric is smooth and there are no folds or puckers.

Sew the Seams:

Using your sewing machine and a 1/2 inch seam allowance, stitch all the way around the four sides of the pinned fabric layers. Backstitch at the beginning and end of your stitching to secure the seams.

Step 5: Finishing Touches

Trim and Finish Seams:

Trim the corners diagonally to reduce bulk (be careful not to cut into your stitching). You can then finish the raw edges of the seams

using a zigzag stitch, serger, or pinking shears to prevent fraying.

Turn Right Side Out:

Turn the cushion cover right side out through the envelope opening. Use a point turner or a blunt object to gently push out the corners for a neat finish.

Press and Insert:

Iron the entire cushion cover, paying attention to the seams and the envelope opening. Insert your cushion insert through the overlapping back panels. Admire your work!

Exploring Other Cushion Cover Styles

While the envelope style is a great starting point, the world of DIY cushion covers offers many other creative possibilities:

The Zippered Cushion Cover

This style offers a more tailored look and a secure closure. It requires installing a zipper along one edge, typically the bottom. It's a slightly more advanced technique but results in a very professional finish.

Key Considerations for Zippered Covers:

1. Measure and cut two pieces of fabric the same size (W x H) plus seam allowance.
2. Install a zipper on one of the raw edges of the two pieces before sewing the other three sides.
3. Use a zipper foot on your sewing machine for easy installation.

The Buttoned Cushion Cover

Adding buttons can create a charming, decorative closure. This can be achieved with a simple flap on the back, similar to the envelope style but with buttonholes and buttons instead of an overlap.

Tips for Buttoned Covers:

1. Plan the placement and size of your buttons carefully.
2. Ensure buttonholes are sewn neatly and are the correct size for your buttons.
3. Reinforce the fabric around buttonholes if necessary.

The Piping and Welted Cushion Cover

For a more luxurious and designer look, consider adding piping or welting around the edges. Piping is a cording covered in fabric, inserted into the seam allowance, giving a defined edge. Welted edges are similar but often created with a folded strip of fabric.

Getting Started with Piping:

1. You'll need piping cord and bias tape or fabric cut on the bias.
2. Attach the piping to the edges of your fabric pieces before sewing them together.
3. This technique requires precision but yields a stunning result.

No-Sew Cushion Covers: A Quick and Easy Alternative

For those who prefer not to sew, there are no-sew options!

1. **Fabric Glue/Adhesive:** Use strong fabric glue to create hems and join pieces.

2. **Fringe & Tie Method:** Cut fringe around the edges of two fabric pieces and tie them together to close the cover. This is a fun, casual look.
3. **No-Sew Iron-On Hem Tape:** This tape uses heat to create a strong bond, similar to sewing.

Tips for Success and Creative Embellishments

Elevate your DIY cushion cover game with these extra tips:

1. **Embrace Pre-Made Piping or Trim:** If making your own piping seems daunting, you can purchase pre-made piping in various colors and styles.
2. **Add Pom-Poms or Tassels:** These are easy to attach to the corners or along the edges for a playful touch.
3. **Appliqué or Embroidery:** Personalize your covers with fabric cutouts, appliqué designs, or hand-stitched embroidery.
4. **Consider Different Fabric Combinations:** Mix and match textures and patterns. For instance, a velvet front with a linen back, or a bold patterned front with a plain contrasting back.
5. **Use a Contrasting Thread:** For a subtle design detail, use a thread color that contrasts with your fabric for visible stitching or decorative topstitching.
6. **Don't Be Afraid to Experiment:** The beauty of DIY is the freedom to try new things. If a technique seems challenging, watch online tutorials or practice on scrap fabric first.
7. **Interchangeable Covers:** Make multiple covers for your cushion inserts so you can easily change your decor with the seasons or your mood.

Caring for Your Handmade Cushion Covers

Proper care will ensure your beautiful creations last:

1. **Follow Fabric Care Instructions:** Always refer to the fabric manufacturer's recommendations for washing and drying.
2. **Gentle Washing:** For most fabrics, a cool, gentle cycle in the washing machine is recommended.
3. **Air Dry:** Air drying is best for most fabrics to prevent shrinkage and damage.
4. **Ironing:** Iron on the appropriate setting for your fabric, ideally from the inside to protect embellishments.

Questions & Answers About how to make cushion covers at home

N o	Question	Answer
1	What are the easiest cushion cover designs for beginners to try at home?	Envelope cushion covers are fantastic for beginners as they require no zippers or buttons. You simply create three sides of a seam and overlap the fabric for the opening. Simple tie-on covers using fabric strips are also very beginner-friendly and add a charming touch.
2	What fabric types are best for making durable and stylish cushion covers?	For durability and style, consider medium-weight cottons (like quilting cotton or canvas), linen blends, or even upholstery fabrics. These are easy to work with, hold their shape well, and offer a good range of colors and patterns. Washable fabrics are always a good choice for cushions that see a lot of use.
3	How do I get the perfect fit for my cushion covers every time?	Always measure your cushion insert accurately. For a snug fit, cut your fabric 1 inch larger than the cushion dimensions on all sides. For envelope closures, add extra fabric for the overlap (typically 6-8 inches total for the back panels).

You can add decorative elements using fabric paint, iron-on transfers, stencils, or even by sewing on ribbons, pom-poms, or tassels. 5	Do I need a special sewing machine or specific tools to make cushion covers?	A standard sewing machine is perfectly fine for making cushion covers. Essential tools include fabric scissors, a measuring tape or ruler, pins, an iron and ironing board for pressing seams, and thread that matches your fabric.
