Well, wonder no more! This comprehensive guide will walk you through everything you need to know to master the art of

Dutch Blitz, from setting up your game to shouting "Blitz!" with confidence. So, grab a deck (or two!), gather your friends, and let's get playing!

What Exactly is Dutch Blitz?

At its core, Dutch Blitz is a competitive card game for two or more players (though it truly shines with four or more). The objective is to be the first player to get rid of all the cards in your "Blitz" pile by playing them onto shared "Castle" piles. It's a game of speed, quick reflexes, and a touch of strategic thinking as you try to manage your hand and anticipate your opponents' moves. Think of it as a high-octane blend of Uno, Solitaire, and a dash of pure, unadulterated chaos.

The Essential Dutch Blitz Components

Before we dive into the nitty-gritty of gameplay, let's talk about what you'll need. The beauty of Dutch Blitz is its simplicity. You'll need:

1. **Dutch Blitz Card Decks:** These are specially designed decks, and you'll need one for every two players. Each deck contains 48 cards: 12 each of four colors (red, blue, yellow, and green), numbered 1 through 12.
2. **Players:** As mentioned, it's best with at least four players, but you can play with as few as two. The more, the merrier (and the louder!) for a true Dutch Blitz experience.

Setting Up Your Dutch Blitz Game: The Foundation for Frenzy

Setting up Dutch Blitz is straightforward, but it's crucial to get it right to ensure a smooth and fair game. Here's how you do it:

1. Distribute the Decks

For every two players, you'll need one deck. So, if you have four players, you'll need two decks shuffled together. If you have six players, you'll need three decks, and so on. Ensure all decks are thoroughly shuffled to create a randomized playing field.

2. Dealing the Cards: The Starting Hands

This is where the strategic distribution begins. Each player will receive cards in specific piles:

1. **The Blitz Pile (10 Cards):** These are the cards you're trying to get rid of! Players take their first 10 cards from the shuffled deck(s) and place them face down in a pile to their left. This is their "Blitz" pile. The top card of the Blitz pile is turned face up.
2. **The Stock Pile (3 Cards):** To the right of your Blitz pile, place three cards face down. These form your "Stock" pile. Turn the top card of the Stock pile face up.
3. **The Field Piles (4 Cards):** To the right of your Stock pile, deal out four cards face up. These are your "Field"

piles. These cards are always visible and are a crucial part of your playing surface.

4. **The Hand Pile (Remaining Cards):** Any remaining cards in the shuffled deck(s) form your "Hand" pile. Keep this pile face down in front of you, accessible for drawing.

So, at the start of the game, each player will have their Blitz pile (10 cards, top one up), Stock pile (3 cards, top one up), Field piles (4 cards, all face up), and their Hand pile (face down).

The Gameplay: A Whirlwind of Card Play

Now for the exciting part! Dutch Blitz is all about speed and quick thinking. Here's how the game unfolds:

1. Starting the Game

Once everyone has their piles set up, the game can begin. There's no formal "start" signal like "Go!" in Dutch Blitz. The moment the dealer finishes setting up their piles, players can begin playing cards. It's a free-for-all from the get-go!

2. The "Castle" Piles: The Heart of the Game

In the center of the playing area, shared by all players, are the "Castle" piles. These are the piles you'll be playing

cards onto. There will be a maximum of four Castle piles established during the game. Here's how they work:

1. **Starting a Castle Pile:** The very first card played onto the center area must be a Red 1. If no one has a Red 1 immediately available, players continue playing cards from their Field piles onto their own piles until a Red 1 is revealed and can be played.
2. **Building on Castle Piles:** Once a Castle pile is started, subsequent cards must be played in alternating colors and ascending order. For example, if a Red 1 is in play, the next card played on that pile must be a Blue 2, then a Yellow 3, then a Red 4, and so on, all the way up to 12.
3. **Color Sequencing:** Remember the color sequence: Red -> Blue -> Yellow -> Green -> Red, and so on.

3. Playing Your Cards: Where Speed Meets Strategy

Players can play cards from any of their face-up piles onto the Castle piles. Here's a breakdown of where you can play from:

1. **Field Piles:** You can play any face-up card from your Field piles onto a Castle pile, provided it follows the alternating color and ascending number rule.
2. **Blitz Pile:** The top card of your Blitz pile is always face up. You can play this card onto a Castle pile if it's a valid move.
3. **Stock Pile:** The top card of your Stock pile is also face

up. You can play this card onto a Castle pile if it fits the rules.

4. Replenishing Your Field Piles

When you play a card from one of your Field piles, that spot becomes empty. You must immediately replenish it by taking the top card from your Stock pile and placing it face up in that empty spot. If your Stock pile runs out, you'll have to draw from your Hand pile to replenish your Field piles.

5. Drawing from Your Hand Pile

Your Hand pile is your lifeline. When you need new cards, you can draw from your Hand pile. The standard rule is to draw three cards at a time, placing them face down into a new pile. Then, turn the top card of this new pile face up. This becomes your new "draw" pile for when you need to replenish your Field piles. You continue to draw three at a time until your Hand pile is depleted.

6. The "Blitz!" Call: Winning the Round

This is the moment everyone is waiting for! When a player manages to play the last card from their Blitz pile, they must immediately shout "Blitz!" at the top of their lungs.

Important Note: You can only call "Blitz!" if you have played the last card from your Blitz pile onto a Castle pile. If you accidentally call "Blitz!" before your Blitz pile is

empty, you might face a penalty (often, you have to take a certain number of cards back into your Blitz pile – check your house rules!).

7. Scoring: The End of a Round

Once "Blitz!" is called, all play stops immediately. The player who called "Blitz!" has won the round. Now, it's time to score:

1. **Blitz Player:** The player who called "Blitz!" gets 0 points for that round. Their goal is to empty their Blitz pile as quickly as possible.
2. **Other Players:** All other players count the number of cards remaining in their Blitz piles. Each card left in their Blitz pile counts as 1 point against them.

8. Playing Multiple Rounds: The Path to Overall Victory

Dutch Blitz is typically played over multiple rounds. The game continues until one player reaches a predetermined point total (e.g., 100 points). The player with the *lowest* score at the end of the game wins!

Key Strategies and Tips for Dutch Blitz Mastery

While Dutch Blitz is a game of speed, there are definitely strategies you can employ to improve your chances of

winning:

1. **Prioritize Your Blitz Pile:** Your ultimate goal is to empty your Blitz pile. Always be looking for opportunities to play cards from it.
2. **Don't Hoard Useful Cards:** While it might be tempting to hold onto a valuable card, remember that playing it and opening up your Blitz pile is usually the better move.
3. **Watch Your Opponents:** Pay attention to what colors and numbers your opponents are playing. This can give you clues about what they have and what they might need.
4. **Strategic Field Pile Management:** Think about which cards you place in your Field piles. Sometimes, it's better to leave a less useful card face up if it's blocking a more valuable card underneath.
5. **Master the Draw-Three:** Get used to the rhythm of drawing three cards. Sometimes, you'll get a great hand, and other times, you'll be stuck with cards that don't fit.
6. **Communicate (or Don't!):** In some versions of Dutch Blitz, players might call out colors or numbers they need. However, the purest form is often a silent frenzy. Decide on your house rules!
7. **Practice Your "Blitz!" Call:** Make sure your call is clear and loud! The element of surprise can be a powerful tool.

Common Dutch Blitz Variations and House Rules

Like many beloved games, Dutch Blitz has evolved over time, and different groups have their own unique variations and house rules. Some common ones include:

1. **The "Forbidden" Card Rule:** Some groups implement a rule where certain cards (often the 1s or 12s) cannot be played on certain Castle piles.
2. **Penalty for Incorrect "Blitz!" Call:** As mentioned, a penalty for calling "Blitz!" prematurely is common. This could involve taking cards back into your Blitz pile or even a point penalty.
3. **"Draw One" Rule:** Instead of drawing three cards, some play with a "draw one" rule to keep the pace a little more controlled.
4. **Hand Pile Management:** Some groups have different rules for how you draw from your Hand pile, such as drawing one at a time or being able to look through your Hand pile.

It's always a good idea to clarify your house rules before starting a game to avoid any confusion or arguments!

Why Dutch Blitz is So Addictive

So, what makes Dutch Blitz so undeniably fun and popular? It's a perfect storm of factors:

1. **Fast-Paced Action:** There's no downtime in Dutch Blitz. The game is constantly moving, keeping everyone engaged and on their toes.
2. **Easy to Learn, Hard to Master:** The basic rules are simple, making it accessible to all ages. However, the speed and the need for quick decision-making offer a surprising depth of strategy.
3. **Social and Interactive:** Dutch Blitz is inherently a social game. The shared playing area and the constant need to react to others' moves foster a lively and interactive environment.
4. **High Replayability:** With different card distributions and player interactions each time, no two games of Dutch Blitz are ever the same.
5. **The Thrill of the "Blitz!":** That moment when you finally empty your Blitz pile and the triumphant (or sometimes frantic) shout of "Blitz!" is incredibly satisfying.

You've got the knowledge, you've got the decks, and now you're ready to experience the delightful mayhem of Dutch Blitz for yourself. Gather your friends and family, set up your piles, and prepare for an evening of laughter, friendly competition, and the exhilarating rush of playing cards as fast as you possibly can. Mastering the Dutch Blitz: A Strategic Chess Opening for Attack

The Dutch Blitz stands as one of the most dynamic and aggressive openings in modern chess, celebrated for its rapid development and aggressive push toward the opponent's kingside. Popular among players seeking to control the center while launching a swift counterattack, this opening disrupts traditional setups and forces immediate responses, making it a favorite at all levels—from amateur clubs to international tournaments.

Understanding the Dutch Blitz: Structure and Setup

At its core, the Dutch Blitz is defined by the sequence 1.d4 followed by 2.c4, bypassing the Sicilian's common 2...Nf6 and immediately challenging White's central dominance. The move 2...c5 is then met not with 3.Nc3—the usual Sicilian response—but with 3.Nf3, immediately advancing the center with 4.cxc5. This sequence creates unbalanced pawn structures and opens lines for both sides, but crucially, it forces White into a reactive position, often sacrificing tempo for initiative. The flexibility inherent in delaying rook placement and central pawn moves allows White to adapt quickly, leveraging sharp tactics and piece

coordination.

Key Insights and Strategic Intentions

What makes the Dutch Blitz so compelling is its emphasis on tactical sharpness and psychological pressure. By playing 2.c4 and 2...c5, White challenges Black's control without committing too early to complex pawn chains. The 3.Nf3 move is pivotal—it prepares for later kingside castling and prepares to exploit weaknesses in Black's structure, especially if Black responds with 3...d6 and 4...Nf6, setting the stage for counterplay. This opening thrives on imbalance and mobility, encouraging players to trade pieces strategically and exploit open files for rooks and bishops. The goal is not merely to seize the center but to destabilize Black's plans while maintaining flexibility to steer the game into sharp, unbalanced positions.

Applications Across Playing Styles

The Dutch Blitz is remarkably versatile, fitting seamlessly into both aggressive attacking styles and positional setups where rapid development is prioritized. Young players often adopt it to bypass traditional Sicilian complexity and enter the game with a fresh, dynamic plan. Meanwhile, seasoned players appreciate its ability to break psychological symmetry—Black, often defending, must constantly react, limiting their ability to plan long-term. In blitz and rapid formats, the Dutch Blitz excels by

rewarding speed and precision, often leading to early tactical combinations. Even in slower games, its adaptability allows for creative deviations, making it a valuable tool in a chess arsenal.

Benefits of Playing the Dutch Blitz

One of the most significant advantages of the Dutch Blitz is its ability to disrupt opponent preparation. By avoiding standard Sicilian structures, White forces Black into unfamiliar terrain, increasing the likelihood of missteps. Additionally, the opening's rapid development accelerates tempo gain, enabling swift piece mobilization and central pressure. Players who master this opening often report improved tactical awareness and a more proactive mindset, as the need for constant adaptation sharpens decision-making under pressure. Beyond the board, adopting the Dutch Blitz cultivates resilience and creativity—essential traits in high-stakes chess environments.

The Future of the Dutch Blitz in Competitive Chess

As chess evolves with deeper engine analysis and evolving opening theory, the Dutch Blitz continues to adapt. Modern engines reveal subtle nuances in best lines, helping players refine their approaches and anticipate opponent counterplay with greater precision. While

traditional theory remains a foundation, innovation persists—players experiment with unconventional setups and late-breaking ideas, ensuring the opening stays relevant. With increasing emphasis on dynamic, flexible play in both classical and rapid formats, the Dutch Blitz is poised to remain a staple in elite preparation. Its enduring appeal lies not only in its immediate tactical threats but in its capacity to inspire bold, imaginative chess that challenges both mind and strategy.

Mastering Dutch Blitz: A Comprehensive Guide to This Frenetic Card Game

In the fast-paced world of card games, few rival the sheer, exhilarating chaos of Dutch Blitz. Often described as a hybrid of Spite & Malice and Nertz, this game demands lightning reflexes, sharp observation skills, and a healthy dose of strategic thinking. Whether you're looking to inject some high-energy fun into your next family gathering or seeking a new competitive challenge, understanding how to play Dutch Blitz is your first step to victory. This detailed guide will break down the game, from its core mechanics to advanced strategies, ensuring you're well-equipped to dominate the Dutch Blitz table.

What is Dutch Blitz? A Whirlwind of Cards

Dutch Blitz, also known as Nertz or Barnyard Rummy in some circles, is a highly competitive, multi-player card game played with two or more decks of standard playing cards. The objective is simple: be the first player to empty your "Dutch Pile" (also called the Blitz Pile). This is achieved by strategically playing cards onto shared "Foundations" or "Stockpiles" in ascending order, starting from 1 and going up to 13. The game's intensity comes from the simultaneous play; everyone is vying for the same Foundation piles, creating a race against time and your opponents. This makes it a perfect game for large groups and parties.

Setting Up for Success: The Dutch Blitz Card Distribution

A proper setup is crucial for a smooth and fair game of Dutch Blitz. Here's how to distribute the cards:

The Dutch Pile (Blitz Pile)

Each player receives a face-down "Dutch Pile" of 13 cards. This is your primary objective pile, and you win by playing all of these cards. You can only play the top card of your Dutch Pile onto a Foundation. Peeking at your Dutch Pile is strictly forbidden.

The Stockpiles (Play Piles)

After forming your Dutch Pile, the remaining cards in your hand are used to create four face-up "Stockpiles" of three cards each. These are your primary playing cards. You can play from any of these four piles, as well as from the top of your Dutch Pile or your discard pile.

The Discard Pile (Trash Pile)

The remainder of your hand forms your discard pile. This pile is also face-up, and you can play cards from the top of it. Crucially, you must discard one card from your hand onto your discard pile at the end of each turn (when you can no longer make a play). This creates a strategic element of what you choose to reveal to your opponents.

The Foundation Piles (Common Piles)

These are the central piles where the game is won. Four Foundation piles are started in the center of the playing area. Each Foundation pile must begin with an Ace (a '1'). Once an Ace is played, players can then play a '2' of the same suit on top of it, followed by a '3', and so on, up to a King ('13'). The key here is that **any player** can play **any card** they have onto the Foundation piles, regardless of whose card it is. This is where the race element truly shines.

The Core Gameplay: Racing to the Finish

Once the cards are distributed, the game begins with a synchronized shout of "Blitz!" (or sometimes "Go!"). Here's the flow of play:

Simultaneous Play

Everyone plays at once. Players are constantly looking for opportunities to play cards from:

1. The top card of their Dutch Pile.
2. The top card of any of their four Stockpiles.
3. The top card of their discard pile.

These playable cards can be placed onto the four Foundation piles if they are the next card in sequence and suit. For example, if a Foundation pile shows the '5' of Hearts, a player can play the '6' of Hearts from any of their accessible piles.

Building Foundations

The goal is to build each Foundation pile from Ace (1) to King (13) in the correct suit. Since all players contribute to these central piles, efficient play involves not only advancing your own position but also strategically playing cards that help the overall progress of the Foundation, even if it benefits an opponent.

Discarding Strategy

When a player can no longer make a play from their Dutch Pile, Stockpiles, or discard pile, they must discard one card from their hand onto their discard pile. This action is critical. You need to be mindful of what you're discarding, as it becomes available to all other players. A discard that helps an opponent significantly can be a costly mistake. This is one of the trickier aspects of Dutch Blitz strategy.

Ending the Round

A round ends when one player successfully plays the last card from their Dutch Pile onto a Foundation. This player shouts "Done!" or "Dutch!" and the round immediately stops. All other players cease playing.

Scoring Dutch Blitz: Keeping Track of Wins and Losses

Scoring in Dutch Blitz is where the true competitive edge comes into play. The player who finishes their Dutch Pile first wins the round. The scoring system is typically as follows:

1. **Winner:** The player who finishes first scores points based on the number of cards remaining in their opponents' Dutch Piles. For instance, if the winner has no cards left in their Dutch Pile, and each opponent has 10 cards remaining, the winner scores 30 points (10

points per opponent's pile).

2. **Losers:** Players who did not finish their Dutch Pile score negative points. They lose 10 points for each card remaining in their Dutch Pile.

The game continues for multiple rounds, with players aiming to reach a predetermined score (e.g., 500 points). The first player to reach or exceed this target score wins the overall game.

Key Dutch Blitz Terminology: Speak the Lingo

To play Dutch Blitz effectively, understanding the common terms is essential:

1. **Dutch Pile (Blitz Pile):** Your personal pile of 13 face-down cards that you must empty to win the round.
2. **Stockpiles:** Your four face-up piles of three cards each, from which you can play.
3. **Discard Pile (Trash Pile):** Your face-up pile where you discard cards when you can no longer play. You can play the top card of this pile.
4. **Foundation Piles:** The four central piles where cards are played in ascending order by suit.
5. **Blitz!:** The call to start the game simultaneously.
6. **Done! (or Dutch!):** The call to signal the end of a round.
7. **Red-Black Rule (Optional):** Some variations of Dutch

Blitz incorporate a "red-black" rule on the discard pile or stockpiles, where you can only play a card of the opposite color on top of another card. While not part of the standard game, it's a common house rule to add complexity.

Strategic Approaches to Dutch Blitz: Beyond Basic Play

While Dutch Blitz is largely a game of speed and luck, strategic play can significantly improve your win rate. Here are some advanced Dutch Blitz tips:

Prioritize Your Dutch Pile

Your primary objective is always to get cards from your Dutch Pile onto the Foundations. Whenever the top card of your Dutch Pile can be played, prioritize playing it. This is the fastest way to win a round.

Master Your Discard Strategy

Think carefully about what you discard. If you have a card that an opponent is clearly building towards (e.g., a '3' of Spades when they have the '2' of Spades on a Foundation), consider holding onto it or discarding something else if possible. Conversely, if you have a card that could help multiple players, playing it can sometimes speed up the game in your favor, creating more opportunities for you to play.

Observe Your Opponents

Pay attention to what cards your opponents are playing, what they're discarding, and what they seem to be collecting. If you notice an opponent repeatedly needing a certain card or color, you can sometimes use your discards to hinder them, or if you have a playable card, use it to your advantage by playing it yourself before they can.

The Art of the Stockpile Shuffle

When you play a card from a Stockpile, the card underneath is revealed. Sometimes, the card that is revealed might be more immediately playable than the one you just played. You can strategically play from your Stockpiles to reveal more useful cards. Additionally, if you can play all three cards from a Stockpile, it creates an empty space, which some variations use for different rules (though in standard Dutch Blitz, it simply means that pile is gone until you can replenish it).

Don't Be Afraid to Play Cards that Help Others (Strategically)

This might sound counterintuitive, but sometimes playing a card that helps an opponent can be beneficial. If playing that card allows you to immediately play another card from your Dutch Pile or Stockpile that you couldn't before, it might be worth it. It's about creating forward

momentum for yourself.

Manage Your Hand

While Dutch Blitz is fast-paced, try to have a general sense of what cards you have available. If you have multiple options, consider which play will open up the most subsequent plays for you.

Practice Makes Perfect

The more you play Dutch Blitz, the better you'll become at recognizing patterns, anticipating opponent moves, and making split-second decisions. Playing with different groups can also expose you to various house rules and play styles.

Variations and House Rules in Dutch Blitz

Like many popular card games, Dutch Blitz has a number of variations and house rules that can alter the gameplay. Some common ones include:

1. **Starting Cards:** Instead of 13 in the Dutch Pile and 9 in Stockpiles, some players might use different distributions.
2. **Wild Cards:** Introducing Jokers as wild cards can add another layer of strategy.
3. **"Trash" Pile Usage:** Some rulesets allow players to

"dig" through their discard pile to find a specific card, albeit with a penalty.

4. **Scoring Modifications:** The point values for winning and losing can be adjusted.
5. **"No-Peek" Rule Enforcement:** How strictly players are penalized for accidentally peeking at their Dutch Pile can vary.

Always clarify the specific rules before starting a game of Dutch Blitz to avoid confusion and ensure fair play.

Why Dutch Blitz is So Addictive

The enduring appeal of Dutch Blitz lies in its unique blend of elements. It's:

1. **Fast-Paced and Exciting:** The simultaneous play creates a constant thrill.
2. **Social:** It's a fantastic game for groups, fostering laughter and friendly competition.
3. **Strategic, Yet Accessible:** The core rules are easy to grasp, but mastering the strategy takes time and skill.
4. **High Replayability:** Every game is different due to the random card distribution and varied player dynamics.

Whether you're a seasoned card shark or a complete beginner, Dutch Blitz offers an engaging and energetic gaming experience. With this comprehensive guide, you're ready to dive in, embrace the chaos, and hopefully, shout "Done!" before anyone else.

Long-term engagement becomes possible when resources remain available. Notes saved today support understanding tomorrow. Bookmarks placed months ago still guide attention. Learning stretches across time rather than resetting with each new resource. The role of books subtly shifts. Instead of being consumed once, they remain present. They wait patiently, ready to be reopened when curiosity returns. This availability transforms reading into an ongoing relationship rather than a single event. Digital literacy develops naturally through this interaction. Readers become comfortable managing files, evaluating sources, and navigating information. These skills extend beyond reading, supporting broader academic and professional

competence. The appeal of downloading **How To Play Dutch Blitz** lies not only in convenience, but in how it supports sustainable learning habits. It aligns with real-life rhythms rather than idealized schedules. Learning becomes something that adapts to life, not something life must adjust for. As interests change, resources remain flexible. Readers return with new questions, different perspectives, and deeper curiosity. The same text offers new insights depending on context and experience. This adaptability supports lifelong learning. Knowledge does not stagnate when access remains constant. Instead, it grows alongside changing goals, responsibilities, and understanding. Books become quieter companions. They do not demand attention, yet remain available. They offer structure without pressure and depth without rigidity. Over time, these qualities shape mindset. Learning feels approachable. Curiosity feels welcomed. Understanding feels earned rather than forced. Accessing **How To Play Dutch Blitz** in this way reflects a broader shift in how people engage with information. It prioritizes continuity over completion, reflection over speed, and curiosity over obligation. Rather than marking an endpoint, each return to the text opens a new entry point. Ideas evolve, questions deepen, and understanding grows gradually. In this space, learning continues without announcement. It moves alongside daily life, responding to moments of interest, quiet reflection, and renewed curiosity. And in that steady presence, knowledge remains not as a

destination, but as something that stays close, ready whenever it is needed.

Questions & Answers About how to play dutch blitz

N o	Question	Answer
1	What's the basic goal of Dutch Blitz?	The main goal in Dutch Blitz is to be the first player to empty your 'Dutch Piles' (your personal deck) by strategically playing cards onto the central 'Blitz Piles'. It's a fast-paced game of matching colors and numbers.
2	How does the card counting work in Dutch Blitz?	Dutch Blitz has two decks: the primary deck for playing onto the Blitz Piles, and the 'Dutch Piles' in front of each player. Players try to play cards from their Dutch Piles in ascending order (1-10) onto the Blitz Piles. Red numbers can be placed on black numbers, and black numbers on red numbers, regardless of their value.
3	What are the 'Blitz Piles' and how do they differ from 'Dutch Piles'?	The 'Blitz Piles' are the four central discard piles that all players can play on. The 'Dutch Piles' are the stacks of cards in front of each player that they are trying to empty. You play cards *from* your Dutch Piles *onto* the Blitz Piles.

4	Can you play any color on any other color in Dutch Blitz?	No, you can only play a card on a Blitz Pile if it's the next sequential number (regardless of color) or if it's the same color but a different number. However, red cards can be played on black cards of the same number, and vice versa. This alternating color rule is a key strategy!
5	What happens if I run out of cards to play on the Blitz Piles?	If you can't play any cards from your hand or Dutch Piles onto the Blitz Piles, you can make a 'Throw' by discarding three cards from your hand, one at a time, into your personal discard pile. You can then play cards from this discard pile.
6	How do you win a round of Dutch Blitz?	A round ends when a player empties all their Dutch Piles. They shout 'Blitz!' to signal the end. The player who finishes first wins the round and scores points based on the cards remaining in their opponents' Dutch Piles.
7	What's the 'Blitz' rule that gives the game its name?	The 'Blitz' rule means that when a player has emptied all their Dutch Piles, they must immediately shout 'Blitz!'. If they successfully do this before anyone else, they win the round. It's a race to play all your cards!
